We Guarantee Your Satisfaction!

We've taken a lot of time to select the products in this catalog, and we're confident that you'll be happy with anything you buy from us. To back up this belief, we are offering one of the strongest satisfaction guarantees in the business. It's simple. We like happy customers because they will buy from us again and again. So, **if for any reason** you are not completely satisfied with a product you bought from this catalog, just let us know with a toll-free phone call and return the product within 15 days after receiving it for a prompt refund of your purchase price. All we ask is that you return the product in like-new condition with all parts and original packaging. That's all there is to it!

To further insure your continued satisfaction, earlier this year we also expanded our service department. Unlike many mail order companies that are happy to sell you the equipment but don't want to hear from you if anything ever goes wrong with it, TENEX stands behind the products it sells. We are an authorized service center for the Star Micronics, the

TENEX Turbo XT, and other key brands, so we can help you whether your product is still under warranty or not.

Super prices, great service, outstanding products — and they are all backed by our TENEX Guarantee of Satisfaction and our friendly staff of specialists. Try us out today!

NEW!

It's Here!

GEOS 128

GEOS 128. For the last year, C128 owners have had to content themselves with running GEOS in the 64 mode; you had to choose between the super graphic environment offered by GEOS and the more powerful 80-column 128 mode. Well, now 128 owners can have **both!** GEOS 128 is now shipping!

GEOS 128 includes several new programs. First, it includes a C128 mode geoWrite word processor, which makes good use of the 80-column display and the faster disk access. The package also includes geoPaint 128, a powerful graphics tool, plus the notepad, scrapbook, and calculator desk accessories; and the latest set of printer and input drivers. The new GEOS package takes advantage of many of the C128's features, including the "fast" mode and special function keys. With a 1700 or 1750 RAM expander, you can set up a RAM disk for truly blazing speed.

If you already have GEOS 64, you will still be able to use your 64 mode GEOS

application programs, including geoDex, geoFile, and geoCalc, with GEOS 128. (These 64 mode applications will run in the 40 column mode; 128 versions are in the works at Berkeley now.) Your 64 mode geoWrite and geoPaint files will be compatible, too.

Find out how powerful your C128 **really** is — step up to GEOS now!

68956 C128, Disk

Sug. Retail \$69.95
\$44.95

WRITER'S WORKSHOP 128. All the great features of the 64 version, but in the more powerful 80-column 128 mode. See the entire width of a document now — not just half. Includes geoWrite, geoMerge, Text Grabber, and geoLaser.

COMING SOON! geoFile 128 and geoCalc 128 are scheduled for October release — we'll stock these and all other GEOS titles at low, money-saving prices!

These Programs May Be Your Ticket To Fame And Fortune!

NEW!

LOTTO PICKER PLUS. Newest release lets you store winning Lotto, Keno, and Pick 3/4 numbers and choose 1 of 3 different statistical modes: unbiased, "hot", or "due" to select what may be your million dollar winning number. Most popular Lotto games, including California, New England Tri-State, Canada, and many more are already stored in Lotto Picker Plus. You can also play 3 and 4 digit daily number games or program in Keno-style games like New York's Pick-10 or Pennsylvania's Pick-11.

Lotto Picker Plus is never obsolete because you can use the "Wild Card" window to add a new Lotto or Keno-style game or alter the characteristics of an existing game whenever you want.

NEW!

PRO FOOTBALL ANALYST

PRO FOOTBALL ANALYST. Bankrupt your bookie? Win your office pool? The developers of the critically acclaimed Ridge System say that by spending only 5 minutes a week to input data from your local newspaper, you should be able to improve your winning percentage. The secret of the Ridge System is a handicapping analyzer that lets you use your computer to uncover hidden overlays in the betting line for NFL games. This program may pay for itself!

3 New Action Games from

MICRO PROSE
SIMULATION & SOFTWARE

STEALTH FIGHTER™. Pilot America's newest top secret aircraft. Your jet is armed with lasers, missiles, rockers and cannon, but concealment is your most effective weapon. For use on missions to potential troublespots throughout the world — from a tactical strike in Europe to an airfield attack in North Africa. Available in October.

72117 C64/C128, Disk

Sug. Retail \$39.95 **\$29.95**

AIRBORNE RANGER™. Danger and suspense behind enemy lines. You're one of the elite . . . parachuting alone behind enemy lines. You'll need luck to locate the previously hidden caches of first aid supplies, skill to outmaneuver your enemy and strategic thinking to plan your escape. The action is constant as you control one soldier's battle against overwhelming odds.

72124 C64/C128, Disk

Sug. Retail \$39.95 **\$29.95**

PIRATES. Join us, mate, for an expedition into one of the most fascinating eras of this millennium! As a privateer captain, criss-crossing the Spanish Main, slip into ports as needs or opportunities require, but always returning to the freedom of the open seas. Complete with ship battles, land conquests, fencing, romance, treasures, and exploration of new lands. Over 70 different scenes.

72138 C64/C128, Disk

Sug. Retail \$39.95 **\$29.95**

"Gunship is the best simulator of any type ever created for the C64."

—Run Magazine

GUNSHIP. Enter the AH-64 Apache attack helicopter and experience the thrill and excitement of low level, high speed flight. Embark on search and destroy, rescue and covert missions. Features 3D graphics and an outstanding joystick flying system.

39217 C64/C128, Disk

Sug. Retail \$34.95 **\$26.95**

SILENT SERVICE. In the dark depths of the Pacific Ocean inside an American World War II submarine awaits the challenge of strategic combat. Sink the enemy ships and keep your submarine from being destroyed — if you can.

\$9.95

First Came THE PAWN ... Now There Is GUILD of THIEVES

GUILD OF THIEVES. When the Pawn was introduced, it created a new standard for adventure software. Its fantastic graphics combined with an incredibly powerful parser (the part of the program that interprets your commands) and huge vocabulary to provide adventurers with a quest that was witty, challenging, exciting and fun to look at. Now, **Magnetic Scrolls**, the same programming team that created *The Pawn*, takes you back to the mythical kingdom of Kerovnia for another quest. You'll find that *Guild of Thieves* keeps you burning the midnight oil just like *The Pawn* did. Outstanding graphics, witty dialogue, wry humor, and challenging puzzles make this title the next big hit from Firebird. Includes 40 page novella plus other goodies.

71855 C64/C128, Disk

Sug. Retail \$39.95
\$27.95

"The Pawn is so good that to compare it in the same category as many of the adventures currently on the market is to do it a gross injustice."

— Computer & Video Games

THE PAWN. "I was amazed... England's all-time best adventure game... a must..." *Commodore Magazine*. The most advanced graphic adventure ever! *The Pawn* combines outstanding, detailed graphics with a sophisticated text operating system to create unusually realistic dialogue and events. The story is absorbing, humorous, and lively, and will appeal to all levels of adventures. Characters in the plot each have a personality (even the animals) and will respond intelligently to conversation. A real first!

KID PRODUCTIVITY!
Winner, Best Educational Software — *Science 86*
Winner, Software Award: Outstanding Original Programming — *International Consumer Electronics Show*

Cross a Word Processor, a Drawing Program, a Music Program, and a Printing Shop, and then make the whole thing easy enough for kids, and what do you get? — **KID PRO QUO!**

KID PRO QUO. Softsync calls it an illustrated word processor, but it's more than just that! Look at these great features:

- Write & Illustrate Text
- Save & Copy Images
- Music Fanfare Library
- Paint & Animate Pictures
- Store & Read Books
- Illustrated Manual
- Compose Music
- Large Picture Library
- Easy to Use

The Editors of *Science 86*, in selecting Kid Pro Quo as one of the best educational software packages said, "It embeds educational excellence in a program students will find interesting and motivating." Kid Pro Quo's multiple applications become an activity center that encourages creativity in kids in a wide range of ages (recom-

mended for Ages 8-14). The built-in libraries of pictures and music make it easy for kids to create books, newsletters, cards, and reports. The simple animation commands let kids learn the basics of how to make their drawings move, run, and fly. Since Kid Pro Quo prints everything out on the screen, children can create illustrated book reports, biology papers, maps, graphs, and even comic strips. With a graphics printer connected to your computer, you can also create printed versions of your screen creations. Kid Pro Quo is a creative toolbox that will expand to fit any imagination! From Softsync. Sug. Retail \$29.95

MAVIS BEACON TEACHES TYPING. Forget the simple letter drills — when was the last time anyone typed "asdfsda" at work? Using a combination of artificial intelligence and striking graphics, this program teaches typing faster than any program on the market.

Each lesson is tailored for work in the real world from a database of over 1,000 passages from history's greatest writings. For youngsters, Mavis offers jokes, riddles, rhymes, interesting facts and records from The Guinness Book of World Records.

Mavis "speaks" to her students in complete, conversational sentences as she analyzes typing errors and progress — with more than just "bleeps" when an incorrect key is hit. She even senses when the student is tired and suggests a break at the Indy Racer game!

Many other features are included in this outstanding typing tutor, such as: a metronome selection, Dvorak keyboard option, a resume writer, user-designed lessons, and suggestions for business teachers developing their own lessons.

"Bridge Baron is the most advanced bridge program in the country" — Alan Truscott, Bridge Editor of the New York Times

BRIDGE BARON. Winner of the First Computer Bridge Tournament. The BRIDGE BARON stands alone as the strongest computer bridge playing program available. You may bid, play, or bid and play deals. Over one million deals are available or you may input your own deals. You bid and play the South hand, while the computer bids and plays the West, North, and East hands.

The BRIDGE BARON is the result of several years of development of good bridge playing algorithms by Thomas A. Throop, a computer expert and 20 year Life Master of the American Contract Bridge League.

72357 C64/C128, Disk **\$32.95**

PLAY BRIDGE WITH SHEINWOLD. Developed by Tom Throop, this is the first in a series of Autobridge® — style computer bridge products. These products are based on deals designed and analyzed by a number of the country's most prominent bridge experts. PLAY BRIDGE WITH SHEINWOLD consists of 91 challenging deals designed by Alfred Sheinwold, the world renowned columnist and author.

You play the cards as the declarer. Each time it is your turn to play from your hand or dummy, you are given from 1 to 5 choices to come up with the correct play. If you do not find the correct play, the computer program makes the proper play for you and the game continues. A personal copy of Sheinwold's book, *Bridge Puzzles*, is included in this package.

Small Business Accounting

ACCOUNTANT, INC. is for small business owners who are looking for a better way to keep track of their financial results but want a system that is both easy-to-use and cost effective. Accountant, Inc. may actually pay for itself by reducing paperwork! It is designed to increase productivity quickly, decrease training, and eliminate bookkeeping errors commonly made in manual systems. It is General Ledger based, and Invoice and Receipt driven — the same way small businesses are run. Accountant, Inc. takes data generated during the normal business day and posts it to the correct journals and ledgers. It automatically creates correct journals and ledgers and keeps them up to date, cutting down accounting costs without sacrificing any elements of a solid accounting system. Generates **32 key reports** to let you monitor the health and performance of your business. Takes full advantage of C128 display and memory.

Thought Processor **OUT-THINK** Kamasoft Software For C128!

**SAVE
\$20.00**

OUT-THINK is a new kind of software called an outline processor. Sometimes called an idea processor, this type of software lets you work with ideas as you create, develop, and express them through the written word. The benefit to you is a boost to your thinking and writing process. You can harness the computer's power to help you plan, brainstorm, write, learn, study, organize thoughts, classify data, analyze ideas, catalog items, track information, and make presentations.

OUT-THINK features extraordinary ease of use and ease of learning. You'll be able to organize your thoughts like never before. Whether you are writing a term paper, organizing a new sales campaign, or working on the Great American Novel, **OUT-THINK** is the tool you need. Runs in CP/M on the C128, and requires at least one 1571 disk drive. Sug. Retail \$69.95

Write better book reports, term papers, memos and speeches.

THINKING CAP. It's tough enough to be faced with the task of having to produce a finished document. It's even worse when you find you can't get started, because you're having trouble organizing your thoughts. Now Thinking Cap lets you jot things down randomly, then it turns your notes into a polished, coherent progression of ideas. Start by typing in your main topic, then list all of the ideas you have about that topic. When you're through, Thinking Cap helps you organize them into a clear, logical pattern of thought. Now you have a perfect outline, which you can turn into a beautifully organized final draft. Built-in text editing makes it easy to do without having to use a word processor. From Broderbund. Sug. The Word Processor Everyone Is Talking About!

Broderbund Software

BANK STREET WRITER. "The key to Bank Street Writer's success is its ease of use. Yet for all its simplicity, it is powerful," says *TIME* Magazine. "... remarkably easy to learn and use," agrees the *New York Times*. An hour or less should have children or adults up and writing at home or in the executive suite. No complex codes to memorize — the screen guides you through every step. Here are some of its many features: • Automatic word wrap — no need to press the return key • Add, move, insert or erase blocks of text • Universal search and replace anywhere in the manuscript • Automatic centering and indenting for professional look • Easy storage and retrieval, complete with password protection • Document "chaining" for unlimited length. Developed and tested by Bank Street College of Education. Complete with special tutorial on back of disk that teaches the basics of word processing in practically no time. Reference manual and free back-up disk also included. **Sug. Retail \$49.95**

"Best Buy" Database

"Everything about Datamat-64... makes it the perfect database for most home applications." — RUN Magazine

RUN Magazine called Datamat-64 a "Best Buy" because of its ease of use, large file capacity, free support line and many features.

DATAMAT-64 is flexible — design your database in free form using the full screen editor. To handle your complex data needs, define up to 50 fields per record and up to 2000 records per diskette (space dependent). If you have varying report requirements, you'll appreciate DATAMAT's complete reporting capabilities. Sort on multiple fields in any desired combination, and then select records for printing in your specific format. DATAMAT-64's menu screens easily take you from function to function. Use DATAMAT for mailing lists, home inventory record and tape libraries, collections and any other type of data organization job.

More Than A Spreadsheet, More Than A Database... ONLY Program Of Its Kind For The Commodore C128

NOW \$59.95

"... a gem of a program, with enough power and flexibility to satisfy even the most demanding small business user..." — COMPUTE!'s Gazette

VIZASTAR. A comprehensive information processor. Easy to operate. VIZASTAR is the ONLY program of its kind on C128 and provides a totally comprehensive office information system. The SPREADSHEET has exceptionally fast worksheet calculations, ruled worksheet display for superb clarity, a 1000-Row by 64-Column wide worksheet with enormous 60K memory capacity, individually variable column widths, over 30 formula functions available — including table lookup and date functions, and much more. The DATABASE gives you split second record access, processes up to 3 files concurrently,

records containing up to 8,000 characters, full screen design of records — up to 9 screens make up a single record, and many other features.

BUSINESS GRAPHICS uses figures from any user-defined worksheet cell range, simultaneously draws two-dimensional bar graphs directly on to worksheet display, full-screen, full-color exploding pie chart, and full-color three-dimensional skyscraper bar graphs. From Progressive Peripherals.

Create REAL 3-D Images Includes 3-D Glasses

IMAGE 3. Many software makers have called their graphics three dimensional, but at last there is a program that lets you create 3-D images that appear to have depth and seem to "float" behind the screen. How is it done? Using techniques similar to those used in 3-D motion pictures, the program actually creates 2 separate and different images in different colors; special glasses included with the kit let each eye view one image, causing the appearance of depth.

Image 3 includes a high level language that converts simple up, down, right, left, and tilt commands into 3-D coordinates. Other features include operator perspective change, auto-setup file, operator gauges to indicate vehicle attitude, and a proportional screen dump to the printer that yields a shaded hard copy of the image. Get The Most Out Of Your Commodore 64 With A

SMART START™

SMART START™ Sound, graphics and other advanced features are what make the Commodore 64 as popular as it is. But these features can also require a lot more programming know-how

than many Commodore owners care to learn. That's why MUSE® developed **SMART START™** — to harness the power of Commodore and put it conveniently at your fingertips.

Here are just a few of the things you can do with **SMART START™**:

- Quickly select all options from pull-down menus with cursor or joystick.
- Customize your computer's border, text and background colors.
- Keep track of time with an on-screen digital clock and alarm.
- **LOAD, RUN, SAVE** and **CATALOG** programs simply by pressing the cursor and **RETURN**.
- Easily design colorful sprite graphics.
- Easily create exciting and unique sound effects.
- Experiment with waveforms, filters and other sound elements.
- Automatically generate **BASIC** code for your sound and sprite programs.
- Merge multiple programs into one.
- Easily print out screens and programs.
- Includes sample sprite and sound programs.

Makes the Commodore 64 fun and easy to use for everyone. **\$34.95**

COMMODORE 128 SOFTWARE

All the software for the Commodore 64 listed in this catalog will run on the C128 in its C64 mode. Even if the program description doesn't mention the C128, it will run. Many firms have developed new software that will take advantage of the C128's advanced features and bigger memory. These are designated as "C128" software, and will run only on the C128 in C128 mode. The list of C128 software is growing daily — contact our Customer Service Department for new additions that may not be listed in this catalog.

One of the fastest growing uses for computers is printing everything from greeting cards to newspapers. This special section includes a great selection of software and accessories to let you create exciting and professional printing.

Organize Your Life With A Custom Calendar!

CREATE A CALENDAR. Epyx introduces a fun and easy way to organize your hectic schedule by making your own totally unique calendar. Great for students and teachers, moms and dads, even businesses. Make up weekly chore lists or VCR taping schedules. Keep track of homework assignments.

With Create A Calendar, you can combine text and graphics to create daily, weekly, monthly, or annual calendars. You can repeat regular events automatically, like a Boy Scout meeting on the third Monday of each month; place multiple events on a single day without retyping; fill in holidays automatically, and more. Customize your calendars by selecting from a wide variety of fonts, borders, and graphics to give each one a personal touch. Get organized today!

The Graphics Integrator 2

The Link Between Graphic Programs, Word Processing and Multi-media.

THE GRAPHICS INTEGRATOR 2. A simple and powerful tool for converting picture files from one graphics program to another graphics program format, allowing you to gain the benefit of each program's most important features. Plus, you can use the additional utility programs to integrate your picture files with word processing programs, take advantage of enhanced printer-interface support and create a self-running slide show all with the touch of a lightpen or just a few keystrokes. Converts Flexidraw, Doodle!, Print Shop, Print-Master, Koala, Cadpak 64, Super Sketch, Geos, Computereyes, Animation Station, Blazing Paddles, and Billboard Maker — all with little or no conversion. Note: converts only into Newsroom.

Powerful CAD Software Includes High Quality Light Pen

T.H.I.S. A Computer Aided Design program that takes advantage of the Commodore 128's special capabilities. T.H.I.S., from Micro Aided Designs, lets you do anything from sophisticated designs to doodles. Look at this list of features and functions: ZOOM, ROLL, TUMBLE, CUT, COPY, DRAG, PASTE, TAPE MEASURE, ENGLISH, METRIC, BOX, ARC, FILL, CIRCLE, ELLIPSE, GRID, TEXT, and many more. Of course, you can save and retrieve your images using your disk drive and print to many common printers.

Packaged with the software is a high quality light pen that plugs into your joystick port. With the light pen, you can design right on the screen and even access most menu functions without the keyboard.

T.H.I.S. supports Star, Epson, Commodore, Seikosha, and other printers, and Xetec, G-Wiz, and other interfaces. Requires Commodore 128 Computer, a 512K Memory Expander, a 1571 Disk Drive, and a 1902A or equivalent Color Monitor.

SKETCH MODE

By Mark R. Rubin

FILL

"A very good buy and an exceptional program to work with." — RUN
"Breathtaking . . . one of the bargains of the year." — Software Shopper

DOODLE. Fast, easy and fun! Doodle turns your computer into a tool for unlimited design and artistic creativity! Create anything you can imagine . . . from sketches to house plans, to fine art, to business forms or letterheads that you can run off on your printer! Precise mouse or joystick operation, high-resolution graphics, program flexibility, and super ease of use. Special functions include duplicate, rotate, squeeze, reduce, enlarge, stretch and reposition. "Letter" commands let you put keyboard text and graphics characters on the screen in any size and direction. Doodle prints copies at the touch of a key — works with most popular printers including the Okimate 10 color printer. From Crystal Rose.

"The best drawing program around"
— Midnight Gazette Software

FLEXIDRAW VERSION 5.5. This new version of the ultimate drawing program has more features than ever. You can still use a light pen as your input tool (sold separately — see below), or you can use a mouse, joystick or Koala pad. Whether you are doing simple free-hand sketches or complex CAD-type drawings, Flexidraw has the power you need with its top quality hi-res graphic input and editing system. The master disk has the main drawing routines for use with the light pen, as well as sample drawing library, symbol templates and a music synthesizer program. A programming mode lets you access the drawing routines from BASIC. The sprite editor/animation adds a great plus to FLEXIDRAW — there's no easier way to edit sprites than with a light pen. The most powerful feature is the ability to use a set of symbols (yours or ours) which can be moved to a second work screen and added to a drawing.

FLEXIDRAW is easy to use due to the sophisticated menu system which is similar to those of large computer drafting systems; maximum detail is possible. Free-hand drawing is very smooth because of an "averaging" function that filters out noise and jitter. From Inkwell Systems.

Graphic Environment Operating System

Get A "Mac" Look With Menus, Icons And Windows!

Just look at these benefits: Speeds disk access by as much as 7 times—Easy icon-based file handling—geoPaint software for easy charts, diagrams & pictures—geoWrite software for "what you see is what you get" word processing—Multiple fonts, point sizes, & styles—Desk Accessories software, including calculator, alarm clock, and more.

GEOS is a lot more than just a new software product. Commodore has proclaimed it the Official Disk Operating System for the Commodore, and is bundling it with the 64C. GEOS dramatically changes the look and feel of the C64's and C128's operation by incorporating a menu, icon, and window-based user interface similar to that pioneered by Xerox and popularized by the Macintosh. This means a much easier, friendlier, and faster way of communicating with the computer.

Beyond the most visible change in the screen display, GEOS does much more. By speeding up the disk drive performance, GEOS is able to page memory in from the disk. This allows ap-

plications to be developed that were previously only available on much more expensive computers. The result: two programs that provide an integrated environment for home desktop publishing — geoWrite and geoPaint.

geoWrite is a "what you see is what you get" word processor. Text appears on the screen exactly

as it will be printed out. It includes 5 proportionally spaced fonts in a number of point sizes and type styles. geoPaint is a super graphics editing program that lets you use 32 different paint brushes, a pencil, an airbrush, a ruler, and much more.

Graphics and text can be cut and copied between applications. Two special desk accessories — the Photo Manager and Text Manager — allow pieces cut and copied from write and print documents to be saved in albums, and later incorporated in new documents.

There are simply too many features and benefits to describe in detail — suffice it to say that this is the most revolutionary product ever introduced for Commodore, and that no user will want to be without it for very long. Additional application programs are listed below. Enter a new world of computing with GEOS! From Berkeley Softworks.

Personal Publishing For The C64/C128! More GEOS Power!

FONTPACK 1 contains 20 new and exciting fonts (typefaces) for use with the GEOS applications, geoPaint and geoWrite. Each font brings its own unique character and impact to all your printed presentations. Jazz up a newsletter! Spruce up a report! Create announcements and invitations that no one will forget! Typefaces range from traditional, to whimsical to a mathematical symbol font. Pick a font and a point size that suits your need and type away. What you see on the display screen is what you'll get from your dot matrix printer. Express yourself distinctively with the 20 new fonts from Fontpack 1! From Berkeley Softworks.

WRITER'S WORKSHOP gives you the ability to create professional quality documents right from your own desktop! **geoWrite 2.0** is a full-featured word processing program which has many features found in much higher-priced programs, and some features that even the others don't have. The program has full justification and centering, multiple rulers, search and replace, headers and footers, superscript and subscript, and much more.

geoMerge is a powerful mailmerge program that cuts repetitive tasks down to size. Combined with other GEOS applications, you can create personalized form letters; produce inventory and price tags, data lists, and more; quickly merge groups of address information. **Text Grabber** converts documents from other word processing programs to the GEOS format. **geoLaser** is an application which allows you to use the Apple LaserWriter laser printer to produce near typeset quality output using GEOS. No LaserWriter? Don't fret! Access to a LaserWriter is no more than a phone call away. Simply upload your files onto QuantumLink. (See page 44.) They will be printed and mailed back to you, laser perfect! From Berkeley Softworks.

Sug. Retail \$49.95

DESKPACK 1 contains 4 new desk accessories which can be "popped" up in any GEOS application. This package is not only useful, but entertaining. **Graphics Grabber** converts the artwork and graphics libraries of other popular Commodore graphics programs so that they can be used in GEOS. Now you can "grab" pictures and graphics from such programs as PrintMaster, Print Shop, and Newsroom, and use them in your GEOS files and documents. **Icon Editor** lets you convert non-GEOS files to the special GEOS format, as well as create your own customized icons. Icon Editor will not alter the information in a file, or the way in which a file is stored on the disk. In other words, after the conversion, a file will work exactly as it was originally intended to work. **Calendar** is a desk accessory that you can open while you are working in any GEOS application. You see an entire month displayed on your screen. Attach memos or notes to individual dates and keep up with your busy schedule! **Blackjack** lets you have a break after all the productive work you've done with GEOS! Sit back and relax while you improve some (possibly) profitable skills! From Berkeley Softworks.

ICON FACTORY

Take those great graphics from Newsroom, Print Shop and PrintMaster - enlarge and alter them, then bring them into your popular drawing programs.

GET THE PICTURE?

ICON FACTORY is a tool to convert graphics from one format to another and to actually improve the graphics in the process! You can convert them, blow them up, position them, etc. Graphics can be enlarged and smoothed with the amazing Optimizer. Icon Factory is compatible with Print Shop, PrintMaster, Newsroom, Doodle, Flexidraw, Blazing Paddles, Computereyes, SuperSketch, Billboard Maker, Koala, and Animation Station. Although printing is optional, Icon Factory works with properly interfaced Star, Epson, Okidata, Commodore 801/1525, and compatible printers. From Solutions Unlimited. Sug. Retail \$34.95
54213 C64/C128, Disk **Only \$22.95**

BILLBOARD MAKER

Create Giant 4 Foot Posters!

BILLBOARD MAKER. Blow up your usual 6 1/2" by 8 1/2" screen printouts to an eye-popping **3 feet by 4 feet!** It takes your original screen and divides it into either 4 or 16 screens, each stored as a separate file. You can use the Optimizer function on high resolution pictures to smooth out jagged edges; you can even redraw or add new detail to the individual screens. Billboard Maker will then print out, using regular size paper, the enlarged image. (For example, a 16 time blowup prints as 4 "strips" which can be trimmed and pasted together for the full poster.) Compatible with Doodle, Print Shop, Flexidraw, Computereyes, Animation Station, Blazing Paddles, Koala, and SuperSketch. Printers supported are Star, Epson, Okidata, Panasonic, Commodore 1525, Canon Color Inkjet, and compatibles. From Solutions Unlimited. Sug. Retail \$34.95
54225 C64/C128, Disk **Only \$22.95**

Photo Finish

Polish Up Your Pictures! Near Laser Quality!

SPRINGBOARD

**A sophisticated newspaper-making
program designed for journalists of all ages.**

THE NEWSROOM. Whether you're an aspiring journalist, or you merely got stuck producing your club newsletter, THE NEWSROOM helps you design, produce and print out your own newspaper with ease and style! THE NEWSROOM's picture menu offers easy access to the 6 areas of activity. In the PHOTO LAB select from a library of over 600 pieces of clip art, then combine, alter or create special pictures with the graphic tools. At the COPY DESK choose from 5 different styles which automatically arrange around the artwork. Create BANNERS to top off your newsletter using extra large typefaces and borders. As LAYOUT EDITOR position and arrange the work easily. If you have a modem, the WIRE SERVICE sends and receives text and pictures between computers. Get the PRESS rolling and print out the newsletter on letter or legal size paper. Be sure to try out Astrobright continuous sheet paper in vivid blue, red or gold to attract everyone's attention (opposite page). The Newsroom comes with a 75 page instruction booklet filled with ideas. **\$34.95**

A Powerful New Multi-Mode Computer!

THE COMMODORE 128D. Packed with a host of novel and exciting features that make it one of the best performing, most versatile microcomputers available at any price. Among the many impressive features of the Commodore 128D are:

- 128K memory expandable to 640K
- 40/80 column full color display (80 column display when used with RGBI or monochrome monitor)
- Full CP/M plus version 3.0 operation
- Full compatibility with Commodore 64 hardware and software

- Built-in advanced BASIC 7.0
- Fast 1571 built-in 5 1/4" disk drive
- Professional typewriter keyboard with full numeric keypad
- Advanced sound

A great way to upgrade your system!
71133 C128D Computer

\$485.00

C128 Computer System

Start with your current C64 peripherals and software, and add on as your budget permits!

THE COMMODORE 128. The amazing C128 is actually three computers in one, a Commodore 64, a powerful CP/M machine, and a 128 with unbelievable features for a computer costing under \$500 — 40/80 column display, 128K RAM (expandable to 512K), a versatile and easy-to-use new 7.0 highest level BASIC. In the CP/M mode you will be able to tap the huge library of

business, technical and home programs developed for the highly popular CP/M operating system. In the 128K mode, you will be able to use powerful new software (or write your own) that takes advantage of more memory, more commands, 80 screen columns (great for word processing and spreadsheets), numeric keyboard, new cursor control and function keys, and more. In the

CP/M and C128 modes, the C128 will display a full 80 columns — just like business computers costing hundreds or thousands more. (Note: an RGB monitor or 1702 monitor with special cable is needed to use the 80 column mode.)

Telecommunications

ENTER THE EXCITING WORLD OF TELECOMPUTING!

One of the most popular uses of home computers is to "talk" to other computers and computer users. The diversity of on-line services is staggering — from the latest news to airline schedules, from stock prices to interactive adventure games, from electronic mail to patent searches — all you need is your computer, a modem, terminal software, and a phone line. In addition to the national on-line databases like the Source, CompuServe, Dow Jones, and others, there are hundreds or even thousands of local "bulletin boards" run by user groups or individual enthusiasts. Telecomputing is so much fun and offers such a variety of activities that for many users it is the principal use of their home computer.

**Blast Into The
IBM Universe
With The TENEX Turbo PC/XT
Introductory Price!! \$499!!!**

**As Advertised in
The Wall Street
Journal**

TURBO PC/XT. We are really proud of this one! You simply **cannot** beat the quality, performance, and price of our TENEX designed IBM® PC and XT® compatible! Comes to you fully assembled and configured with all these features:

- Proven IBM compatibility!
- Switchable standard speed (4.77 MHz) and turbo speed (8 MHz)!
- 256K RAM installed, expandable to 640K on motherboard!
- One 360K half-height disk drive and controller installed!
- Controller for a second 360K floppy drive installed!
- Parallel printer port installed!
- Color graphic driver installed for RGB and composite monitor! OR Monochrome Graphics port installed or monochrome monitor!
- Guaranteed Lotus 1-2-3 graphics compatibility!
- Terrific new IBM AT® style keyboard!
- Big **150 watt** power supply installed!
- FCC certified and legal BIOS!
- Operating manuals included!
- Sturdy metal frame and case with speaker!
- Full 1 year warranty plus the TENEX satisfaction guarantee!

Shown with optional amber monitor.

For this breakthrough price, you have a complete system with **more** computing power than the IBM PC or XT! Take your system out of the box, plug it in, connect your monitor and printer... and off you go. Run Lotus 1-2-3, dBASE III, Wordstar, Flight Simulator, and the thousands of other PC software products. Full-size metal chassis gives you eight expansion card slots and room and power cables for four half-height disk drives.

You choose the speed of calculation: standard 4.77 MHz or **turbo** 8 MHz. Zoom through programs 1.6 times faster than the IBM PC or XT (Norton benchmark). For games and other speed-dependent software, simply switch to the slower clock rate.

The detachable keyboard mirrors the famous IBM AT in looks, quality, and feel! Features ten function keys, numeric keypad, extra large shift and return keys, and lighted indicators for scroll, caps, and number lock.

Your TENEX Turbo PC/XT will accept IBM compatible components, giving you flexibility in expanding your system and security in the event repair is needed.

And remember your TENEX technical staff is there when you need them!

No corners have been cut in producing this incredible system for this amazing price. We just used our same purchasing power and P.H.D. technical staff we use to bring you the other terrific products found in our catalogs. Note: an IBM compatible disk operating system (DOS) is required. Use your own or choose one listed on opposite page.

Take A Real Close Look!

Because our systems prove as good on the inside as they look on the outside! Our first quality components are manufactured in the same factories supplying many of the big name and big markup computers. We just eliminate the middlemen and expensive advertising. The 1200 BAUD modem, left, and the TURBO PLUS card, right, are shown with the TURBO PC/XT chassis.

A Spreadsheet Amazingly Similar to 1-2-3

TWIN. The famous software package that brings you the power and ease of Lotus 1-2-3 version 1A (latest, most powerful version) at a fraction of the cost.

At \$99.00 *PC Magazine* called it "an excellent value for the money!" We're offering it to you at an unbelievable \$79.95!

Easy-to-use Twin is more powerful than the world's most popular spreadsheet. In addition Twin offers spectacular presentation level graphics, is not copy protected, reads and writes 1-2-3 files directly, and can use 1-2-3 Macros.

Turn your screen into a 8192 row by 256 column electronic worksheet where you can make projections based on "what-if" analysis: change a number in one place and instantly see the results in all the other entries. Project and analyze your investments, production schedules, financial opportunities, crop yields — any situation that can be expressed as related numbers. No need to memorize commands; simply look at the menu at the bottom of the screen and choose.

Up to 15 types of graphs can be printed with a graphics printer or plotted in up to eight colors. Easily input information from your worksheet to generate pie charts in 2-D or 3-D, single or stacked bar charts in 2-D or 3-D, multiple line graphs, and much more.

Requires IBM compatible computer with at least 256K RAM and MS-DOS operating system. Supplied with complete manuals and 360K diskettes.

72883 IBM, Disk

(Almost) Free Software!

You can save a lot of money by buying our Turbo PC/XT computer, and you may not want to spend those savings right away by buying hundreds or thousands of dollars worth of applications software. Here are some very high quality user-supported programs that will get you going in all the important areas. These are self-documenting programs that have been released for public distribution by their authors, some of whom hope that users who like and use them will send them a contribution. These disks are not copy protected and may be duplicated for personal use.

PC-WRITE. Super word processor. ... some say it's better than WordStar.

41436 IBM, 2 Disks **\$10.00**

PC-FILE EXPRESS. Easy-to-use database. Very good review by *PC Magazine*.

41440 IBM, 2 Disks **\$10.00**

AS EASY AS SPREADSHEET. Has almost all the functions of Lotus 123, including range names and macros. Even creates and can use Lotus 123 compatible worksheets. Makes line, bar, pie, and log graphs. Full math functions.

68618 IBM, Disk **\$5.00**

pBASE. Heavy duty programmable relational database system.

41469 IBM, Disk **\$5.00**

PRO-COMM. Easy but powerful communications software. ... many say better than PC-TALK and QMODEM. Supports any baud rate and all modem features. Includes list of hundreds of bulletin boards.

41474 IBM, Disk **\$5.00**

We have dozens more of these "almost free" programs, including utilities, games, business programs, and education software. We also sell hundreds of popular commercial programs at substantial discounts. Call or write our customer service department for a current listing.

67335 Analog Joystick

\$16.95

Full IBM Compatibility in a Laptop!

Imagine a computer that is small enough to take anywhere yet runs all popular IBM software. Imagine how useful it could be for business people who travel but need access to word processing, spreadsheets, databases, or other application programs that are compatible with the same programs at the home office! Well, it's here now! The Bondwell 8 is a rechargeable battery-powered laptop computer that features IBM compatibility plus an almost incredible number of standard features. Included in the basic unit are **512K of RAM** enough to run any commercial program, a **built-in 3 1/2" floppy disk drive**, a **built-in modem**, an **LCD display with backlight**, both **parallel and serial ports** (for a printer or other peripherals), an **AC adapter**, and a **monitor connection** for use with a monochrome monitor if desired.

Transferring data files and software is unbelievably simple using the optional external 5 1/4" drive. Just copy them back and forth as needed, or use your application software to "save" the file to the desired format. Since each 3 1/2" disk holds 720K of data (twice the normal 5 1/4" capacity), there's lots of room on a single disk for both your program and files!

OKIDATA®

The Compatible, Speedy, Versatile, Affordable Printer For Everyone!

OKIDATA 180. Take a turn for the better with the new OKIDATA 180, the one printer that's compatible with most computers! Here's a state-of-the-art general purpose printer with a **dual interface**. The Commodore serial interface allows you to easily connect to the Commodore C64 or C128, while the Centronics parallel interface connects to IBM and IBM compatible computers. Other computers which require a parallel interface (Apple II, II+, IIe, Atari ST, Commodore Amiga FX and virtually all CP/M and MS-DOS computers) can also be used with OKIDATA 180.

The ergonomic "one touch" front panel is designed to give you instant access to frequently used features — mode selection, pitch selection, line feed, form feed. Text and graphics print out lightning quick at 180 cps in High Speed Draft Mode and 120 cps in utility mode. Near-letter-quality text prints at a speedy 30 cps.

Here's a printer for the long run. The printhead is rated for a life of 200 million characters. Ribbon life is 3 million characters. And the OKIDATA 180 is backed by a one year warranty. With great features, compatibility, speed and low price, the Okidata 180 means real value.

For the mathematician,
Print pitches of 5, 6,

The **NX-10** features easy front panel operation. . . no more fumbling with dip switches to change modes and functions! With the NX-10, you simply touch a button on the control panel to select the typeface and print pitch, or to switch from draft to near-letter-quality mode. You can even set margins and align forms! Draft printing is bi-directional at 120 cps. Near-letter-quality mode prints at 30 cps with letters so crisp it's a shame to call it only "near" letter quality. The nine wire print head assures dense, readable characters, even in draft mode.

Another new feature is the Auto Paper Feed. . . it only takes a flip of the paper release lever to automatically feed single sheets into the NX-10. They'll be in position and ready for printing! The big 5K buffer means your computer is free sooner for other tasks. Of course the NX-10 has that famous Star quality and state-of-the-art features such as true descenders, international characters sets, IBM special and block graphic characters, and a full range of print size, column size, and character fonts.

The NX-10 has both push tractor and friction feed as well as the convenience of a clean, long-life ribbon cassette, forward and reverse paper feed and a nationwide service network. The interface is standard parallel.

The **SP-1000 VC** printer from Seikosha features a direct-connect Commodore interface... just plug it in and print! No need to buy any other cables or interfaces. Just look at these great features! A print speed of 100 cps in draft mode, with the added plus of reduced noise level. Or slow it down to 20 cps for near-letter-quality printing (check the "Print Sample" and we think you'll agree this is excellent type quality). Pin-feed and friction-feed are standard on the SP-1000 VC, along with an automatic paper loading function. Character sets include pica, elite, proportional, elongated, condensed, italic, and super/subscripts along with underlining, bold print and double-striking. Also includes right and left margin set function, 1.5K buffer, self-test, and dot-addressable graphics. This Seikosha SP-1000 VC printer is backed by an exceptional full 2-year warranty! Micrographix™ Interface With CP/M

The Best Just Got Better

MICROGRAPHIX INTERFACE. Many of the printer interfaces on the market claim compatibility with the Commodore 64/128 and popular matrix and daisy wheel printers. Some manufacturers emulate the Commodore printer, but leave out important reverse alpha and numeric characters and other features. Others address this aspect but their graphic character representations leave much to be desired. Other interface manufacturers claim compatibility by including software or screen dump equivalents. After looking at all these interfaces, Micro R & D, Inc. took all the best features, improved them and produced the Micrographix Parallel Printer Interface for the Vic 20, C64 and now the C128!

This **totally intelligent interface** contains a complete microcomputer in a box and it plugs into the standard serial port just like the Commodore printer. Now upgraded, Micrographix contains compressed mode with audible tones, enhanced mode with double strike and a buffer repeat function which allows you to reprint what is in the buffer as many times as you desire. Comes with a 90 day manufacturer's warranty. Sug. Retail \$89.95

54673 Micrographix Interface

TIED UP BY PRINT TIME?

Cut Output Time To Seconds Instead Of Minutes

PRINTER BUFFER. We were astonished when we tried out the new 64K printer buffer. We connected it between our computer and a daisywheel printer and cataloged a disk to the printer. To our amazement, the printer had just banged out the first few characters when the computer completed the task and asked for our next command. While the printer continued merrily on its way, we were able to use the computer totally independently. This was so much fun we tried it on word processing, mail lists, and other printing tasks — and were thoroughly impressed by the printer buffer's speed and versatility. Imagine printing a lengthy document in seconds instead of minutes! Think of the increase in personal productivity — while the printer is still working on one document, you can be loading and editing the next! The printer buffer will receive print data at rates up to 8000 cps and then send it to your printer at the printer's own print rate, freeing the computer for your next job. With 64K of usable RAM, the buffer has enough memory to hold approximately 45 pages of double spaced text or numerous pages of detailed graphics. Because the printer buffer has its own power supply, it will continue to hold data even if the computer or printer is turned off, or is off line. Start saving time now! Order your 64K printer buffer today at our low price of \$59.95. The buffer works with most parallel compatible computers and printers, plotters or modems. It's easy to install. . . just plug it in and it goes to work!

ACTUAL TIME COMPARISON

	WITHOUT PRINTER BUFFER	WITH PRINTER BUFFER		
	Gemini 10X direct connect to parallel output	Computer-to-Printer Buffer	Print Time Gemini 10X (120 CPS)	Print Time SCM TP-1 (12 CPS)
1 Page Business Letter	40 sec.	4.5 sec.	28 sec.	2 min. 50 sec.
8 Page Text Document	8 min. 10 sec.	46 sec.	5 min. 43 sec.	(not tested)

No Printer Should Be Without It!

COMPUTER PAPER. Handy packages of the best quality printer paper. Continuous 9 1/2" x 11" sheets of 20# bond clear white paper, "Z" folded with 1/2" perforations on each edge. Tears clean for letterhead quality drafts. Each package contains 540 sheets.

29535 Computer Paper

Only \$8.95

Paper For Your Okimate!

THERMAL TRANSFER PAPER. If you have an Okimate or other printer that uses thermal transfer printing for color or black and white, you need this great paper product! Specially made for today's thermal transfer printers, this paper is extremely smooth and white. The cracking, flaking, and rubbing off that sometimes occur with regular paper are avoided, and the extra brightness and whiteness make colors seem more vivid. Extra-fine perforated edge tears clean for a professional appearance. Pack of 250 Continuous Sheets.

67478 Thermal Transfer Printer Paper

\$8.95

Bulk Labels Save Money!

If you are tired of paying premium prices for little packages of labels that are gone in no time, try these high quality continuous labels specially designed for computer use. The bigger packages will last longer, and you'll save big money!

ONE-ACROSS LABELS. Perfect for mailing lists! Labels are self-adhesive on continuous pin-punched carrier for tractor feed printers. Carrier width 4 1/4". Label size 3 1/2" x 15/16". This label will work with all mailing list programs that use a standard size label. Big 5000 quantity box at a bargain price.

19267 One-Across Labels

\$13.95

THREE-ACROSS LABELS. Self-adhesive labels on a continuous 9 1/2" wide carrier that fits all standard printers — even fixed tractor units. Labels are 2 3/4" x 15/16", and placed in rows of three. 3000 to a package!

22277 Three-Across Labels

\$14.95

DISKETTE LABELS. These 4" x 1-7/16" labels are specially designed for use on magnetic media — they feature a special latex adhesive that lets you pull the label off with no shredding and no adhesive residue. Labels are on perforated carrier for computer use, but you can just write on 'em if you want to. Lots of other great uses, too! Big package of 1000!

67464 Diskette Labels

\$11.95

Space Saving PRINTER STAND

PRINTER STAND. At last a printer stand priced for homes and small offices! We've always liked the convenience and organization of an elevated printer stand — you can put your paper underneath the stand to save valuable table space and make feeding easier. The problem, up until now, has been price. Stands sold to the office market often cost \$40, \$50, \$60 or even more! These great stands from Suncom, a leader in microcomputer accessories, solve the price problem and offer features not found on models costing more than twice as much.

The stands feature **heavy-duty welded steel wire construction** and have a vinyl coating to reduce noise and vibration and provide an attractive appearance that will blend with your computer decor. Another plus that the designers of many more expensive stands left out: our Suncom stand holds the printer at an angle that makes it much easier to see your output as it is being printed.

We use one in our office and agree that this much convenience at such a low price is real value. Available in two widths: 12" for most 80 column printers (Gemini 10X, SG-10, NX-10, etc.), and 18" for most 132 column printers (Gemini 15X, SG-15, FX-100, etc.).

PAPER TRAY

PAPER TRAY. Once Suncom gave us an efficient, economical printer stand, they went to work on another problem... what to do with the printout that comes out of the printer and tends to spill all over the table and floor and get into a real mess? They developed the Suncom Paper Tray! The tray is of the same solid construction as the printer stand and attaches to the rear of all Suncom stands. It receives the printed paper as it comes out of the printer and helps to neatly fold and stack it. A real labor saver!

Diskettes

microPal®

The **39¢** Diskette!

Lifetime
Warranty!

MicroPal Diskettes are one of the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!). They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty and risk-free trial mean you are sure you get your money's worth!

Here's What You Get

Diskettes are packaged in boxes of 50. Each box includes diskettes in sleeves, labels and write-protect tabs. All diskettes have hub reinforcement ring and write-protect notch.

Certified Quality

MicroPal Diskettes are first quality, prime diskettes (no seconds). Each one is individually certified to be 100 percent error free at levels equal to or above ANSI, ECMA and ISO standards.

Lifetime Warranty Plus Risk Free Trial!

We offer a double guarantee of satisfaction:

- 1) All diskettes are backed by a lifetime warranty. If you ever have a problem, we'll replace the diskette.
- 2) To let you discover what a great value these diskettes really are we'll let you try them risk free. Buy a box. If within 30 days you aren't happy with the diskettes for any reason, return them to us for a prompt refund. No questions asked!

Part No.	Description	Box of 50
32391	5¼" Single-Sided, Double-Density Diskettes	\$19.50 (39¢ each)
32403	5¼" Double-Sided, Double-Density Diskettes	\$24.50 (49¢ each)

A Tough Breed of High Performance 5¼" Diskettes

These diskettes are durable — they'll take continuous operation on the same track for over 20 million passes without deterioration in performance! All diskettes feature a super plastic-reinforced hub ring and heat-resistant jacket. Every track of every Fuji diskette is certified to be 100% error-free. Diskettes are packaged in boxes of 10 with color-coded index labels.

RAINBOW DISKS from FUJI

Bored with black, look-alike diskettes? Have some fun with Fuji Rainbow Disks. The same durable diskettes as described above, but made with colored jackets. Each 10-pack gives you 2 red, 2 blue, 2 green, 2 gray and 2 beige diskettes!

65226 SS, DD Rainbow Diskettes
65234 DS, DD Rainbow Diskettes

\$10.99
\$12.99

PLEASE NOTE: Single-sided disks are for use in single side drives like the 1541. Double-sided disks are for use in double side drives like the 1571 (in some modes) or IBM compatible drives. Single-sided disks and double-sided disks look absolutely identical; the only difference is that on the latter the second side is tested and certified error free. To access both sides of a disk when using a single side drive, you must add a second notch and physically turn the disk over. See Disk Doubler on page 43.

Cartridge Port Extender

CARTRIDGE PORT EXTENDER. Are you cramped for space behind your computer? Is it hard to reach your cartridge port to plug in or swap cartridges? This handy cable is your solution.

The cartridge port on the C64 and C128 is unfortunately located in a somewhat awkward position — horizontally in the back, where it is hard to reach and impossible to see. Many users have installed cartridge expanders, which not only let you switch cartridges easily but also places them

vertically for easier access. The cartridge expander, though, takes up a few more inches of table space — no problem for most users, but a drawback for those working in tight quarters. This cable connects to the cartridge port in back of the computer and lets you plug in your cartridge or expander to its other end. Since the cable is flexible, you can locate the cartridge or expander up to 11" away for easier access and more efficient use of table space.

67513 Cartridge Port Extender Cable \$19.95

A Full-Featured Speech and Music Processor

VOICE MASTER from Covox, leaders in speech technology, offers unheard of capabilities for an incredibly low price.

Speech Recording/Playback modes let you record your voice in digitized form, store it in memory, and play it back under program control. Record up to **64 words or phrases** at a time. Save sets of words to disk and play back a virtually unlimited number of words. Once the words are recorded, you don't even need the Voice Master to play them back. This means talking software without additional hardware!

Editor mode lets you change amplitudes of a recorded word or phrase to improve quality or alter its sound. **Word Recognition** mode lets you train the computer to understand up to 32 words at once (any number can be saved to disk) — you will be able to command the computer by voice instead of the keyboard! Playback and Word Recognition can be used together to create a two way conversation with your computer!

The Voice Master produces a **Bar Graph Display** of speech (similar to a real time spectrograph) and a plot of voice fundamental pitch (useful in special education). **Voice Harp** is a powerful music composing program that lets you create and compose music by humming or whistling into the microphone. It actually converts the notes you hum into musical notation. You can then change, correct and even print out your compositions.

54390 Voice Master Hardware & Disk **\$89.95**

SPECIAL! \$4.95 TALKING DISK

TALKING DISK. Find out what can be done with recorded speech! Covox Talking Disk comes with a variety of stored words that let you create talking calculators, clocks, cash registers, etc. with your Commodore 64 or 128. No special hardware needed. Also includes examples of Spanish and German stored words.

Disk Doubler

Double Your Storage By Using The Unused Side Of Your Disks!

DISK DOUBLER. The Commodore uses single sided disks. As you may have noticed, however, these disks actually have magnetic media on both sides. Even though the back side of a single sided disk isn't certified, in almost all cases it is identical to the front side in quality and capability. With our Disk Doubler, you can punch a new write-protect notch on the opposite side of the disk and use the "hidden" second side. The Disk Doubler is easy to use — just slide the disk in, squeeze the button, and a perfectly located notch is punched in the disk jacket. No measuring, no guesswork... the notch is exactly the right place each time! This handy device will pay for itself the first few times you use it.

37374 Disk Doubler **\$9.95**

Now You Can Improve Your Health By Playing Computer Games With . . .

Bodylog™ Systems

"Bodylog has cleverly taken a simple home computer and turned it into a sophisticated exercise machine." — *Commodore Magazine*

HOW IT WORKS —

Miniature sensors (included with software) monitor physiological signals such as heart rate, muscle strength, electrical muscle activity, and skin temperature, to list just a few. To continue successfully playing these specialized games, you must control these signals which make your body work for you! This type of biofeedback is usually only available at a doctor's office or health clinic, but now you can get the same results at these greatly reduced prices!

CARDIO EXERCISE PACKAGE. Get a healthier heart! Determines the heart rate you must sustain for maximum aerobic gain depending on your age, sex, and fitness level. While you exercise on your stationary bicycle, rowing machine, or treadmill you are provided with motivation, invigorating music, and excellent data display which includes: current, resting and target heart rate, calorie expenditure, session time, and a continuous graph of target and actual heart rate. Package includes pulse rate sensor, sensor adapter cable, software on cartridge, and manual.

Abacus Software

Abacus, leading producer of utility software and programming languages for the Commodore home computer, is also a leading publisher of books that explain many of the lesser known features of the Commodore line and show how to program new applications that tap the hidden power of the C64 and C128!

The C128 Reference Library!

C128 BASIC 7.0 INTERNALS. A comprehensive guide to the 7.0 interpreter in the C128. Includes documented and commented ROM listings plus examples of how to use the interpreter routines. Perfect companion for C128 Internals. Sug. Retail \$24.95
54351 Book \$19.95

C128 BASIC TRAINING GUIDE. A great introduction to the C128 including complete description of BASIC commands with examples and problems, structured programming, monitor commands, problem analysis, and more. Sug. Retail \$16.95
54360 Book \$14.95

C128 PEEKs & POKEs. Enhance your programming techniques with these handy hints and quick-hitters. Useful programming techniques cover the operating system, zero-page pointers and stack, 640x200 graphics, Z80 and 8502 machine language, BASIC interpreter and more. Sug. Retail \$14.95
54379 Book \$12.95

C128 INTERNALS. Learn all about Commodore's new three-in-one computer. Covers the insides of the sound and graphics chips, memory management unit, kernel routines, and much more. Includes fully documented ROM listings of the operating system kernel. 495 pages. Sug. Retail \$19.95
38529 Book \$17.95

C128 BASIC REFERENCE CARD. Conveniently lists all C128 commands, functions, etc. At a glance you can find important zero-page locations, input/output statements, program statements, graphic commands, and more! A must for all C128 users.
54381 Book \$2.95

C128 CP/M USER'S GUIDE. An essential guide to using CP/M on the 128. Complete, simple explanations of the organization of CP/M operating system. Covers built-in commands like USER, DIR, ERASE; transient commands like SET, SHOW, SUBMIT; and the "special" 128 commands. Other topics include the System diskette, all about PIP, memory usage, using CP/M utility programs, creating submit files, function key definition, and many other topics. Alphabetical listing of all CP/M commands, and commented ROM listings. 297 pages. Sug. Retail \$19.95
38642 Book \$17.95

C128 TRICKS AND TIPS. Collection of helpful techniques for the C128. Learn how to produce hi-res graphics in 80 columns, use windows, access the memory management unit. Covers important memory locations. 250 pages. Sug. Retail \$19.95
38534 Book \$17.95

CAD FOR THE C64 and C128. Computer Aided Design is one of the hottest new areas in computing and this book shows how many CAD techniques can be implemented on the C64 and C128. Learn about 3D drawing, reflection, duplication, filling, zooming, and more. Sug. Retail \$19.95
37196 Book \$17.95

THE ANATOMY OF THE COMMODORE 64. Now in its fourth printing! Includes chapters on graphics, sound synthesis, input/output control, kernel routines, assembly language programming, music synthesizer programming, PLUS a complete disassembled and documented ROM listing. 300 pages. Sug. Retail \$19.95
37092 Book \$17.95

ADVENTURE GAMESWRITERS HANDBOOK. A step-by-step guide to designing and writing your own adventure games. You'll learn the strategy behind programming adventures — motivating the players, using text and/or graphics, "saving" a game, and more. Includes a complete, ready to run listing for an automated adventure game generator with editor and interpreter. 225 pages. Sug. Retail \$14.95
37213 Book \$12.95

SCIENCE AND ENGINEERING FOR THE C64. Statistics, Chemistry, Physics, Biology, Astronomy, Electronics — the C64 can be a powerful tool for scientific and engineering calculations — this book shows you how. Covers variable types and computational accuracy. Includes sort algorithms such as bubble, quick, and shell sort and POKES useful in solving scientific problems. Topics include linear and nonlinear regression, CHI — square distribution, Fouries analysis, matrix calculations, and more. Includes many program listings. 340 pages. Sug. Retail \$19.95
37143 Book \$17.95

REVISED

THE ANATOMY OF THE 1541. Takes the mystery out of the 1541 disk drive! This guide, now in its fourth printing, details the use of the program, sequential, relative, and direct access files. Includes many sample programs — FILE PROTECT, DISK MONITOR, BACKUP, MERGE, COPY and more. Describes internals of DOS with completely disassembled and commented listing of the 1541 ROMs. A must for the serious programmer. 520 pages. Sug. Retail \$19.95
37105 Book \$17.95

GRAPHICS BOOK FOR THE C64. This massive volume takes you from the fundamentals of graphics to advanced topics like computer aided design. Subjects include: creating new character sets, sprite design and movement, high resolution and multicolor graphics, programming for the light pen, VIC chip control, IRQ handling, shifting the screen, memory, 3D graphics, animation, and much more. Lots of examples to make learning and doing easy! 350 pages. Sug. Retail \$19.95
37124 Book \$17.95

PEEKs AND POKEs FOR THE C64. This book contains dozens of useful "quick-hitters" for the BASIC programmer. Describes the video display, graphics, sprite and sound chips, keyboard, joystick, game paddles, light pen, and user port. Great for adding speed and performance to BASIC programs. 200 pages. Sug. Retail \$14.95
37139 Book \$12.95

1541 REPAIR AND MAINTENANCE BOOK. Pays for itself! Compared to other drives, the 1541 seems to have a few idiosyncrasies — this volume will help you both maintain and repair your 1541 at much lower cost than outside repair services. Tells you how to test the alignment and how to realign quickly. Includes hints for correcting errors, digital and electronic techniques, PLUS schematics. Sug. Retail \$19.95
37110 Book \$17.95

1571 INTERNALS. Insider's guide to the Commodore 1571 disk drive. Describes sequential and relative files, using the direct access command, directory organization. Includes commented DOS ROM listings. Sug. Retail \$19.95
38638 Book \$17.95

THE MACHINE LANGUAGE BOOK OF THE C64. A great starter volume for programmers who want to go beyond BASIC and take advantage of the speed and performance of machine language, this volume also includes three complete program listings — an assembler for writing your own programs, a disassembler to inspect other machine language programs, and an amazing 6510 simulator to "see" the operation of the processor right on the screen. 215 pages. Sug. Retail \$14.95
37073 Book \$12.95

ADVANCED MACHINE LANGUAGE BOOK. Great for serious programmers and for enthusiasts who have completed "The Machine Language Book" above. This volume covers many previously undocumented areas, including programming the video controller, timer and real time clock; performing serial and parallel output at machine language speed; new commands for BASIC; handling interrupts from the CIA; and dozens of timesaving tricks and tips. 210 pages. Sug. Retail \$14.95
37087 Book \$12.95

PRINTER BOOK FOR THE C64 and VIC 20. The ultimate printer reference for Commodore owners! Includes "how to" interfacing info, using secondary addresses for various printers, using printer ports and the principles of printing graphics, utilities and programs for graphics and text hardcopies, formatting program listings, and more. 340 pages. Sug. Retail \$19.95
37181 Book \$17.95

COMPILER DESIGN & IMPLEMENTATION. Whether you are just interested in learning how compilers work or want to design your own computer language, this volume will be an invaluable resource. Includes complete assembler and disassembler. Sug. Retail \$19.95
37177 Book \$17.95

SUBSCRIBE NOW!
\$14.95/1 Yr.

(6 bimonthly issues)

Electronic House is a magazine dedicated to those interested in the developing field of home automation. Learn what the experts are doing, keep informed of new products on the market, study the latest technology, and much more! To subscribe, write or call:

Electronic House, Inc., 524 E. McKinley Ave., Suite 17, Mishawaka, IN 46545. 219/256-2060.

Our Shipping & Return Policy

Your charge card is never billed until your order is shipped! If we must send you partial shipments, your charge card is only billed for the items shipped.

SHIPMENT. Most items are shipped via UPS. Other modes of shipment include Parcel Post and, for certain heavy items, common truck carrier. TENEX maintains an extensive warehouse with over 50,000 items in stock, and automated systems are in place to speed your order to you. Rapid shipment benefits both you and us. Items not in stock may require 2 to 6 weeks.

DAMAGE. We inspect each item before shipment. Please examine your packages carefully when you receive them, and REPORT ANY DAMAGE TO THE CARRIER. No replacement merchandise can be issued unless a damage claim has been filed with the shipper.

RETURNS. Defective products may be returned for replacement within 30 days of receiving them. Items returned for replacement MUST include original packaging materials and any manuals, cables, warranty cards, etc. included in the original package. (For your convenience and protection, do not discard packaging materials or mail in warranty cards until you are certain the product is working properly.) Please write or call our Customer Service Department for a Return Authorization number prior to returning any items to TENEX. All returns must be shipped to TENEX freight prepaid. All items are subject to inspection by TENEX prior to issuance of replacement merchandise.

APO, FPO, ALASKAN, HAWAIIAN, CANADIAN. All payment must be in U.S. Dollars. Checks drawn on Canadian or foreign banks cannot be accepted. Canadian Postal Money Orders payable in U.S. funds are acceptable. VISA, Mastercard or American Express are the preferred methods of payment. **APO, FPO, Alaskan, Hawaiian, Canadian, Puerto Rican, Virgin Islands, Guam orders:** add \$4.00 to shipping and handling charge to cover postage and insurance cost. Contact us about charges for bulky and/or heavy items. **Foreign orders other than above:** add \$8.00 to shipping and handling charge. If ordering large or heavy items, consult desired carrier for estimated freight charges and include with order, or contact us prior to ordering for a freight estimate. If funds included with order are inadequate to cover shipping costs, we will notify you by airmail. Postage or freight and insurance charges will be billed at actual cost on credit card orders.

PRICES. All prices are subject to change without notice. You will be notified of any change at the time of order placement, or prior to shipment on a non-stock item.

SPECIFICATIONS AND PRODUCT AVAILABILITY. Specifications and product availability are subject to change without notice. We have made every effort to be accurate in the specifications and descriptions included in this catalog, but cannot guarantee accuracy or completeness of said specifications and descriptions.

PAYMENT METHODS: For fastest shipment, VISA, MASTER CARD, AMERICAN EXPRESS, a cashier's check, certified check, or money order may be used. Personal checks are also welcome — please allow about 10 extra days for shipment. Purchase orders will be accepted from qualified institutions and firms; please inquire.

IF ORDER FORM HAS ALREADY BEEN USED, please write your order on a plain sheet of paper or order by telephone using our convenient toll-free number. If you send your order on plain paper, be sure you include your name and address, the catalog number of each item ordered, and the appropriate shipping charge. If you would like us to send you additional order forms, please write or telephone us.

WARRANTIES. All of the products offered by TENEX feature a manufacturer's warranty or guarantee. Information about the type or length of coverage of any item is available by calling or writing our Customer Service Department. Generally, warranty service on equipment can be obtained by either shipping or taking the unit to the nearest service location for that manufacturer, along with your receipt and/or other information required by the manufacturer.

ONLY \$4.95

NEW!

Multiply Your VCRI

THE RABBIT. Haven't you ever wanted to watch a movie in a room where the VCR isn't located? Or do you have a video source, like cable TV or satellite TV, at just one location in your building?

Now, with the amazing Rabbit, you can send the output of your VCR anywhere in your house! And there's a big plus — if your VCR has a wireless remote control, you can control it from any TV set in the building.

The Rabbit hooks up in minutes. Everything you need is right in the package. A compact transmitter, receiver, plus special connecting wire so thin it can be easily hidden from sight. If you want to connect more than one remote TV to your VCR, just order an extra Receiver.

You'll wonder how you lived without the Rabbit. And at our low price, it costs less than some individual movie tapes! Order yours today! Sug. Retail \$89.95

65604 Rabbit Package \$69.95

65606 Extra Receiver \$39.95

Stop Endless Cartridge Swapping!

Stop wearing out your computer with endless cartridge swapping! This three-slot cartridge expander from Navarone keeps your most commonly used cartridges plugged in and ready for instant selection! This saves wear and tear on the cartridge and the computer. Save yourself just one repair job and the cartridge expander has paid for itself several times over. Do you use your computer frequently? Do your kids switch cartridges numerous times in a single play or learning session? If so, invest in this inexpensive protection for your computer and software. Great for schools and other high use locations, too.

13329 TI Cartridge Expander

33227 Commodore Cartridge Expander

Economical Surge Suppressors

Protect your valuable electronic equipment from damaging voltage surges and spikes while filtering annoying EMI/RFI interference. Our surge suppressors offer full three-line protection plus a "Power On" indicator light. Perfect for computers, TVs, stereos, VCRs and other equipment. Two models to choose from: a three outlet wall mount block and a six outlet extension strip. The strip has an additional 15 amp circuit breaker, a neon indicating off/on switch and comes with a six foot cord.

The 39¢ Diskette

MicroPal Diskettes are one of the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!). They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty and risk-free trial mean you are sure you get your money's worth!

Here's What You Get.

Diskettes are packaged in boxes of 50. Each box includes diskettes in sleeves, labels and write-protect tabs. All diskettes have hub reinforcement ring and write-protect notch.

Certified Quality.

MicroPal Diskettes are first quality, prime diskettes (no seconds). Each one is individually certified to be 100 percent error free at levels equal to or above ANSI, ECMA and ISO standards.

Lifetime Warranty Plus

Risk Free Trial!

We offer a double guarantee of satisfaction:
1) All diskettes are backed by a lifetime warranty. If you ever have a problem, we'll replace the diskette.

2) To let you discover what a great value these diskettes really are we'll let you try them risk free. Buy a box. If within 30 days you aren't happy with the diskettes for any reason, return them to us for a prompt refund. No questions asked!

Part No.	Description	Box of 50

Unleash The Power of CP/M On Your C128!

"How To" Info On:

- Using A Modem With CP/M
- Downloading Free CP/M Software

Includes Free CP/M Programs — Word Processor, Disk Utilities, Communications, More!

CP/M KIT. To many users, CP/M on the 128 has been an unfulfilled promise — despite the hype, few C128 users have actually found ways to access the many CP/M programs written for other computers. Now, we have the answer . . . CP/M Kit from INCA. Here's what it does for you:

- Explains the use of some of the programs on Commodore's System Disk.
- Demonstrates some of the main features of Commodore's CP/M.
- Shows you how to get started using a modem to obtain more CP/M programs and information.
- Provides a collection of useful CP/M programs.

CP/M Kit includes an informative guide to using CP/M on your C128, concentrating on the unique features of Commodore's CP/M,

using your 1541 or 1571 drive with CP/M, and on using your modem to access electronic bulletin boards that offer free, downloadable software. Also included are lists of books about CP/M and sources of free, public domain CP/M software. Two disks (one is a "floppy" recorded on both sides) loaded with free CP/M software are also in the package. Programs include a powerful word processor, a terminal (communications) program, a chess program, plus many disk and screen utility programs.

If you have wanted to get started in CP/M with your C128 but didn't know where to start, this is what you need — order your CP/M Kit today!
